

I am writing to address my concern that K-LOVE stations in my area and around the country will be forced off the air if LPFM stations are given priority over existing FM translator service. K-LOVE is a service to our community, making frequent public service messages and providing quality programming at the highest standards. If K-LOVE were displaced by a LPFM translator, my family and I would resort to listening to other forms of recorded music rather than an FM translator. It does not seem fair to cut Christian music stations out of the mainstream, as many find this to be the only acceptable form of public entertainment for our families. I feel strongly enough about K-LOVE's mission that I donate a monthly amount to maintain this radio station. I would not do this for any other media. Thank you for your consideration. Wendi S. Babst
